

Plant Skills. Harvest Knowledge.

# FlexLearning

Searching for classes? Visit us at [www.benchmarklearning.com](http://www.benchmarklearning.com)

## The FlexLearning Approach

With FlexLearning, you have the flexibility to train at your own pace, using a comprehensive approach to reinforce learning. Our customized pre-assessments help to determine your skill levels in relation to your courses of interest. This initial evaluation can help you determine where to start and help us recommend a training path.

The FlexLearning approach features one-on-one guidance, multimedia Instructor-led courses and authorized software to ensure enhanced skill development. With FlexLearning, you have your own virtual PC, enabling you to manage hands-on lab exercises that reflect the professional environment. After each course is completed, you can complete a post-assessment to help determine your knowledge transmission, return investment and overall enhancement.

## What are the benefits of FlexLearning?

- ▶ Flexible scheduling for students who can't get away for extended periods
- ▶ The ability to begin classes in accordance to individual schedules
- ▶ Learning specific elements and applications of a course
- ▶ Specialized training based on assessment results
- ▶ Implementation of skills in a timely fashion
- ▶ Consistency without cancelled class sessions

## Integrated Learning for More Effective Results

Help transform your organizational value and professional skills through our Integrated Learning approach. It's a complete method of progressive training, combining elements of reinforcement and validation that maximizes learning through flexible delivery options.

## Pricing Structure

Our pricing for FlexLearning is the same as traditional Instructor-led Training. Many training packages purchased for technical training are transferable to FlexLearning. For additional pricing information, please contact your Benchmark Learning Education Advisor.

## Start FlexLearning Today

Benchmark Learning focuses on finding the right classes and proper delivery method for each individual. This approach helps guide you toward increased efficiency and improved productivity. Please join us by scheduling an informational session with your Education Advisor today, or visit us online at [benchmarklearning.com/FL.aspx](http://benchmarklearning.com/FL.aspx).
